8. Internal Risk Factors

The below mentioned risks are top five risk factors as per the Letter of Offer:

- (a) Our operations are dependent on our R&D capabilities and an inability to continue to design catalytic processes may adversely affect our business.
- (b) A large part of our business includes manufacturing, marketing and supply of specialty chemicals. Any adverse change in the ultimate end user industries of our products can adversely impact our business, results of operations and financial condition.
- (c) We depend on the success of our relationship with our customers. A certain portion of our revenue is generated from few key customers, and the loss of one or more such customers, the deterioration of their financial condition or prospects or a reduction in their demand for our products could affect our business, results of operations, financial condition and cash flows.

- (d) The rating of our bank facilities was recently downgraded from IND A- to IND BBB. This downgrade reflects deterioration in our Company's operating performance during Fiscal 24. Any further downgrade in our credit ratings may increase interest rates for raising new debt and refinancing our outstanding debt, which would increase our financing costs, and adversely affect our future issuances of debt and our ability to borrow on a competitive basis.
- (e) Our statutory auditors have referred to certain emphasis of matters in their reports on the Audited Consolidated Financial Statements and the Limited Reviewed Consolidated Financial Statements.

For further details, please refer “*Risk Factors*” on page 26 of the Letter of Offer.
